  Secondary School

PROJECTS

- **Chat Application**

  A chat app is a digital platform for real-time text communication between users with file sharing, and group interactions.

  – Created two pages which consisted of Login/Signup page and Chatpage .
  – Successfully implemented user authentication for both backend(Nodejs,Expressjs and Mongodb) and frontend using JWT and Bcrypt.
  – Implemented the real time message sending with Reactjs and Socket.io
  – **GitHub Link**

- **Space Survivor**

  A 2D game

  – Built in html,css and JavaScript canvas JS.
  – Used Canvas JS to implement GUI and SFX.
  – You have to control the spaceship with arrow keys and shoot moving asteroids in order to score.
  – Planned Feature-Global Scorecard to make it a competitive game.
  – **GitHub Link**

- **PortFolio**

  The portfolio showcases a diverse collection of projects that highlight my skills and expertise.

  – Created the portfolio website using HTML, CSS, and JavaScript.
  – **Live Link**
